

# INSTRUCTION MANUAL

---

**COFFEE GRINDER**  
**Model: OR-CG02**

**ENGLISH**

**GB**

**230V,50Hz,120W**

## **SPECIFICATION**

- Operating voltage: AC 230V, 50Hz
- Power: 120W
- The Maximum Capacity: 50g
- Stainless steel knife
- Safety switch
- Cable reel facility
- With fan inside the unit to protect the motor
- With constant temperature machine to control the temperature of the motor, which will ensure the motor shut off when its temperature come high

## **BEFORE USING**

Read the instruction carefully. They contain important information for the use, safety and maintenance of the appliance. Keep them in a safe place and transfer them to a possible succeeding user. Only use the appliance for the purpose mentioned in these instructions. When using pay particular attention to the following safety advice.

## **SAFETY ADVICE:**

1. Only connect the appliance to alternating current, with a rated voltage according to the rating label.
2. The appliance is designed for short time operation. In case large amounts are ground, switch off the appliance after one minute of operation in order to allow the appliance to cool down.
3. Only grind coffee with this appliance.
4. Maximum capacity: 50g
5. Do not pull the cord over sharp edges or jam it, and protect it from heat and oil.
6. Do not pull the appliance on hot surfaces, such as hot plates or near unshielded gas flames.
7. Do not disconnect the appliance by pulling at the cord or grip the cord with wet hands.
8. Only remove the lid after the fly cutter has stopped.
9. Children are not aware of the dangers that can be caused by electrical appliances. Therefore never operate the appliance unattended. Store the appliance out of the reach of children.
10. If any of the following happens, do not use the appliance and unplug it immediately:
  - a. If the appliance or cord is damaged, or
  - b. If there is defect after a fall or similar
11. Disconnect the appliance in these situations:
  - a. Any malfunction during operation
  - b. Prior to cleaning and maintenance or
  - c. After use
12. Do not immerse the appliance in water
13. In the case of misuse, wrong handling or incorrect repair no liability will be taken for possible damages. Claims under guarantee are also excluded in such cases.
14. The appliance is not designed for commercial purposes.
15. In case the cord of this appliance is damaged it has to be replaced by an authorized service agent of the manufacturer or a person having similar qualifications. Substantial dangers for the user can appear from inappropriate repairs.

## **PUTTING INTO OPERATION**

1. Prior to first use wipe the inside of the lid and the container with damp cloth and rub dry afterwards. Connect the appliance to a socket. The fill the bowl and put on the lid.
2. The maximum capacity of 50g is sufficient for about 8 cups of coffee.

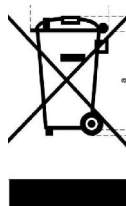

3. For security reasons the fly cutter can be operated with fixed lid only. For grinding, press down the bottom on the lid until the designed degree of fineness is obtained.
4. This can be observed through the transparent cover during operation.
5. After the fly cutter has stepped the coffee powder can be emptied. Prior to this, disconnect the appliance.

**Caution: danger of injury! In any case wait until the fly cutter has stopped operation!**

#### **CLEANING AND MAINTENANCE:**

- After use unplug the appliance.
- Never immerse the appliance in water.
- Clean the outside with a damp cloth only.
- Do not use caustic or scouring cleaning agents.

#### **CORRECT DISPOSAL OF THIS PRODUCT**

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.
