23. Take of the kettle from the base before filling it with water, cleaning or pouring water.
24. Do not repair kettle yourself.
25. Save this instruction manual for future reference.

BEFORE USE

- Remove any labels, stickers or protective foil that may be attached to the body or soleplate of the iron before first use.
- Fill the kettle with water up to the maximum level and let it boil several times. Rins it with clean water. The kettle is ready for use.

HOW TO USE

1. Place the heating base on the firm and level surface.
2. Press the cover button to open the cover, Pour the desired amount of clean water into the kettle (But need to reach the Min 0.5L). Don't touch any part of the kettle except the handle when the appliance is in use, and ensure that the lid is properly closed. The amount of water can be measured by the level mark on the outside of the kettle. Always pay attention to the minimum and maximum levels and ensure that the lid is properly and firmly closed.
3. Position the kettle in such a way on the base that the underside of the kettle fits precisely into the contact unit on the base.
4. Insert the plug into a wall socket.
5. Put the switch up to start the heating process. The indicator lamp will light up.
6. As soon as the water reaches boiling point, the switch is turned automatically to down position.. The indicator lamp will go out. The water kettle can also be switched off manually by putting the switch to the down position.
7. The hot water may now be poured safely through the spout into another container.

CARE AND CLEAN

1. Regularly clean the mineral deposits within kettle to prolong life of product.
2. Cut off the power before cleaning.
3. Do not immerse the base of kettle in any liquid.
4. Put the mixture of the vinegar and water under proportion of 1:2, and then connect to the power, keeping kettle working and wait till it cuts off automatically.
5. Maintain the mixture in kettle for 24 hours then pour out, putting clean water to certain level, start working again
6. Pour out the mixture and clean kettle with clean water, repeat procedures if needed
7. Faults if any during use remove the kettle from base and pour the water out, make sure faults detection or cleaning should be taken after cooling down.

CHARACTERISTICS

- Electric Kettle
- Capacity: 1,7 L
- Lid with water filter
- Glass body
- 360° rotational power base
- Safety boil-dry cut off
- Over heating protector
- Concealed stainless steel heating element
- Lighted ON/OFF switch
- LED lamp
- Voltage: 220 ~ 240V/50Hz
- Power: 1850W ~ 2200W
- Product size: 22x16,3x23,8cm
- Net/gross weight: 1,3/1,93kg
- Colour: black
