SCALE OPERATION

.Time Setting

Insert the Lithium battery to the battery cave (Note: Make sure battery is pushed all the way into its slot. Also make sure + side of battery is facing out). After hearing the sound "di" it will be turn on automatically and the time will show '12:00'. Place the scale on a hard flat surface and press the function key "Mode/set" for a moment, the sound " di " means that it come to the time setting state. The first two digital are for hour and the last two are for minute. Press the key "Push" to set the data and "Mode/Set" to set the minute, finally press "Mode/set" to confirm your data.

.Time Count Down Setting

Press the key "Mode/set", when it shows "00:00" and then press the key "Mode/set" for a moment, the sound " di " means that it come to the time count down setting state. The first two digital are for minute and the last two are second. And press the key "Push" to set your data and "Mode/set" to confirm. The time is counting down, when you hear the sounds 'di-di-di'.

.Weighing Setting

1. Press the key "Z/T" once to come to the weighing state.
2. When the LCD shows Zero, put the container (bowl) on the scale, then LCD will show the weight of container (bowl).
3. Press the key "Z/T" again, then put the article into container (bowl), it will clear the weight of the container (bowl), and display the weight of food.
4. Finally you can press the function key "Z/T" again to return Zero.

.Unit Setting

Press the key "Unit" to change G/KG

Usage Notes:

- When the display shows "Err", it means that the scale is overloaded..
- When the display shows "+/-", it means that the battery is low. Please replace the battery as soon as possible.
- Do not use the wet dishcloth to clean the scale
- Do not overload the scale

Subject to change without notice
